

## F12 Rescue

### F12 Rescue: Disaster Recovery that won't let you down

Most disaster recovery (DR) solutions fail right when you need them:

- ✗ Recovery takes too long
- ✗ Failover state runs poorly
- ✗ Failback is impractical

The truth is, many DR solutions are merely cloud backups masquerading as business continuity solutions. Unfortunately, you and your IT provider have no control over these vendors and their lack of urgency or accountability. Neither do we. That is why we created F12 Rescue.

F12 Rescue is the DRaaS (Disaster Recovery as a Service) solution you can count on – ensuring swift and painless recovery.

### F12 Rescue: easy, affordable & accountable

F12 Rescue is a comprehensive plan to get your organization back into action fast.

We work with you to develop and test a custom DR Runbook for your business needs. That means:

- ✓ Defined Recovery Point Objectives (RPOs)
- ✓ Guaranteed Recovery Time Objectives (RTOs)
- ✓ Standby F12 data centre performance
- ✓ Smooth failover and failback plan

We can make these commitments because we own and control the data centres to make it happen, and we relentlessly test to ensure we can do what we promise. That is the F12 difference.

Comprehensive planning and testing

Customized objectives with guarantees

Simple price that covers failover

### Data protection best practice

Experts recommend the 3-2-1 Rule: 3 (or more) copies of data, on 2 (or more) different media, with 1 (or more) kept off-site. F12 Rescue follows this principle.

### Certified Privacy and Security

F12 is one of a handful of SOC 2 Type II and CyberSecure Canada-certified data protection providers.

### Performance Guarantee

F12 holds standby resources in our redundant Canadian data centers to provide the best possible failover experience.

### What's included in F12 Rescue

SOC 2 Type II-compliant datacentre

End-to-end encryption, in-transit and at-rest leveraging TLS 1.2 AES-256

Production-ready enterprise-level recovery hardware on standby

Annual recovery readiness testing

### About F12

F12 has been creating streamlined technology solutions for more than 20 years. F12 aims to eliminate the IT treadmill of forced obsolescence and never-ending project billing with an adaptable IT platform at a predictable per-user price.
