

F12 Select

Full-service managed IT for Canadian SMEs that provides comprehensive cybersecurity and network support as standard. All at a fixed, per-user monthly cost

For the last 15 years, traditional IT services have only come with antivirus. It's no longer enough — CyberSecure Canada recommends 13 baseline protections for every SME.

When you choose F12 Select, comprehensive cybersecurity defences are built into your IT support — from perimeter defences, configuration and patching, to governance and training you're protected by all the modern security essentials

Plus you enjoy all the necessary management, data backup and support to never have to worry about your information technology. It's all taken care of by F12 Select for a flat, per-user monthly fee.

F12 Select is the full-service managed IT that lets you focus on achieving your vision for success.

IT support, cyber security, and data recovery

SOC 2 Type II and CyberSecure Canada-certified IT provider

Fixed per user monthly fee

Strong, pro-active cybersecurity

When reputation is everything, cybersecurity is non-negotiable. F12 is one of a handful of SOC 2 Type II CyberSecure Canada-certified IT providers. We use auditable data governance policies so you can prove that your procedures are compliant and that client data is controlled and protected to the necessary standards.
