F12 DaaS

Finally, more benefits, less headaches from endpoint computer hardware.

F12 DaaS changes the game for organizations when it comes to deploying, using and maintaining IT endpoints — by eliminating the need to ever worry about it at all.

Your people must have IT hardware (laptops, desktops, monitors) to do their job. You (and they!) don't have to have problems.

If your IT endpoints are just one continual, costly headache.

If you're tired of pouring money into hardware and support with no certainty of outcome or performance.

And if just "getting things right" seems an endless process, endlessly consuming IT resources, business cashflow, C-level attention, you need F12 DaaS.

Authorized Reseller

F12 DaaS: simple and inexpensive IT endpoint provisioning and management

F12 DaaS (Device-as-a-Service) completely takes on the provision, upgrade and replacement of all your IT endpoints. It:

> Provides all your IT endpoints on a revolving three-year lifecycle.
> Includes software installation, plus add-ons and upgrades.
> Covers immediate replacement in case of equipment failure.
> Includes end-of-life secure data destruction.
> Includes select Enterprise-grade HP and Apple equipment

All for one simple monthly fee.

What IT endpoints can I get through F12 DaaS?

Laptops

Desktops

Monitors

Peripherals

Benefits of F12 DaaS

> No capital expenditures
> Control expenses and smooth your cashflow
> No management headaches
> No consumption of scarce IT resources
> Scale without disrupting operations
> Less expense and strain than doing it yourself

F12 DaaS:
Four reasons more companies are choosing F12 DaaS for endpoints

Standardization

Get the best equipment automatically refreshed and replaced every three years. Because we purchase in bulk, you get top-tier IT endpoints without paying the leading-edge premium. What's more, with everyone on the same gear, flexible work arrangements become easier. And it vastly simplifies IT troubleshooting.

Rapid device replacement

We maintain strategic reserves of stock across Canada. Replacements are always at hand for an immediate swap-out in an emergency so your staff can get back on the job quickly — even for mass equipment loss events such as theft or fire.

F12 DaaS

Scalability

F12 DaaS scales effortlessly with your business. New staff? We'll supply all the endpoints they need. If it's a promotion and they need premium equipment for the role, we'll handle that too! And you can add equipment at the same monthly rate with no effect on your existing terms of engagement.

Flat monthly service fee

We pay for and supply all the equipment; you only pay for its use. F12 carries all the risk of device-related issues and you strengthen control over your cashflow by eliminating lumpy, unexpected IT equipment charges and capital expenditures. Free-up cash (and credit) for other business investment while treating your IT equipment as an operating expense for tax purposes.

Your people will love F12 DaaS

Why Operations Managers love F12 DaaS

- No more sub-standard equipment
- Immediate equipment replacement
- No onboarding delays due to waiting for equipment
- Get staff back on the job faster

Why C-level Executives love F12 DaaS

- Much lower TCO
- Fixed, predictable cost
- No capital expenditure on software or hardware
- Stop managing IT and start managing the business

Why HR and IT Managers love F12 DaaS

- No need to manage or maintain hardware and software
- Focus internal IT on application and end-user experience
- Get off the upgrade merry-go-round

About F12

F12 has been creating streamlined technology solutions for more than 20 years. F12 is a leader in managed IT services for Canadian-based small and medium enterprises. F12 distils complex infrastructure, support, cloud, cybersecurity, and software licensing into turnkey service bundles for its clients.
